CURRICUPLAN is a powerful and easy to use *curriculum mapping and instructional management solution*. Develop and distribute high quality instructional content to meet state standards and critical mandates.

Curricuplan's mapping feature is based on the work of *Dr. Heidi Hayes Jacobs*, an internationally recognized expert in the field of curriculum reform.

"Curricuplan has been a valuable resource for us in beginning and sustaining our curriculum mapping initiative. Their customer service and advising throughout our implementation has been invaluable. They have been a part of our planning, training, and use of our maps and their support has been critical to our success. Mapping has been an engaging and satisfying experience for our teaching staff due to Curricuplan's help. We highly recommend their services."

Tomball Independent School District
Tomball, TX

WHY SCHOOL DISTRICTS USE CURRICUPLAN...

- Design, review, and revise curriculum maps and instructional plans online.
- Align content, skills, and assessments to state standards.
- Identify levels of learning expectations.
- Provide updates and distribution of content district wide.
- Link maps to units, lesson plans and instructional resources.
- Collaborate and reflect online to build a learning community.
- Review, compare and analyze curriculum content to identify gaps and repetitions.
- Generate reports on frequency and time frames for addressing standards.
- Search maps and Identify opportunities for cross curricular instruction.
- Promote continuous improvement using the review process to provide instructional coaching.
